LUKOIL DEVELOPS A NETWORK OF EXPRESS OIL CHANGE CENTERS AT FILLING STATIONS IN GEORGIA

LUKOIL and its local lubricants dealer in Georgia have opened the first LUKOIL-branded express service station in the Republic. The station is set up at one of LUKOIL Georgia's gasoline filling station in Tbilisi. The list of its services include basic vehicle health check, tire fitting, as well as oil change, replacement of brake fluid, antifreeze, filters and brake pads.

The assortment of the station, focused on servicing cars and light commercial vehicles, comprises the updated line of LUKOIL GENESIS premium engine oils. The GENESIS series has 16 universal and specialized products that take into account the design features of all types of modern engines of the world's leading carmakers.

In total, there are more than 60 LUKOIL filling stations operatingin the Republic. In the next few years, the company intends to form a network of express oil change and service centers at these gas stations.
